

Performance Features

- Versamatic cleans right up to baseboards and furniture for more productive cleaning.

- Four brush height adjustment comes standard on 14 and 18 inch models.

- Independent motor drives only the brush. "Belt gap" of single motor machines is eliminated.

Windsor Industries manufactures a full line of innovative floor maintenance equipment including:

- Carpet Extractors & Chemicals
- Vacuum Products
- Floor Scrubbers and Sweepers
- Floor Machines and Burnishers

Versamatic®

14 and 18 Inch Upright Vacuums

The number one 2-motor upright in the industry

- Powerful 1,000 watt vacuum motor picks up more dirt in a single pass
- Pull-out hose and on-board accessory tools simplify detail cleaning
- Electronic control system maintains consistent brush motor speed and torque to eliminate premature brush, bearing and belt replacement
- Versamatic's track record of dependability and cleaning performance have made it the most popular 2-motor upright in the industry

INNOVATIVE EQUIPMENT SOLUTIONS

The Popular Choice

For years, the Versamatic vacuum has provided cleaning professionals with cleaning performance and dependability they need to do their job. Versamatic's 1,000 watt vacuum motor and long, trouble-free service life have made this vacuum the most popular 2-motor upright in the cleaning industry.

Deep Cleaning Power

In a single pass, Versamatic's 1000 watt vacuum motor and separate brush motor allow you to clean deep into the carpet and remove dirt that can damage your carpet. It cleans flush to baseboards and furniture for even greater productivity. Versamatic features an Electronic Control System that ensures consistent brush contact and extends the machine's service life. This system also disengages the brush motor if the brush jams.

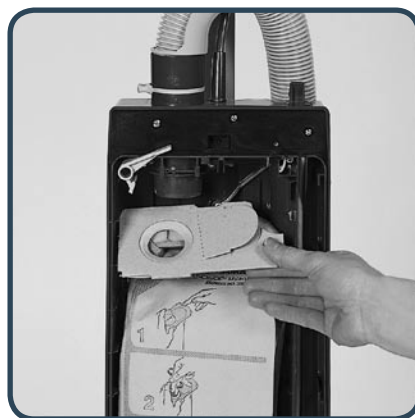

Rugged Durability

Precision engineering and durable construction enable Versamatic to withstand years of daily use. Its injection-molded, high impact ABS plastic construction ensures a long machine life.

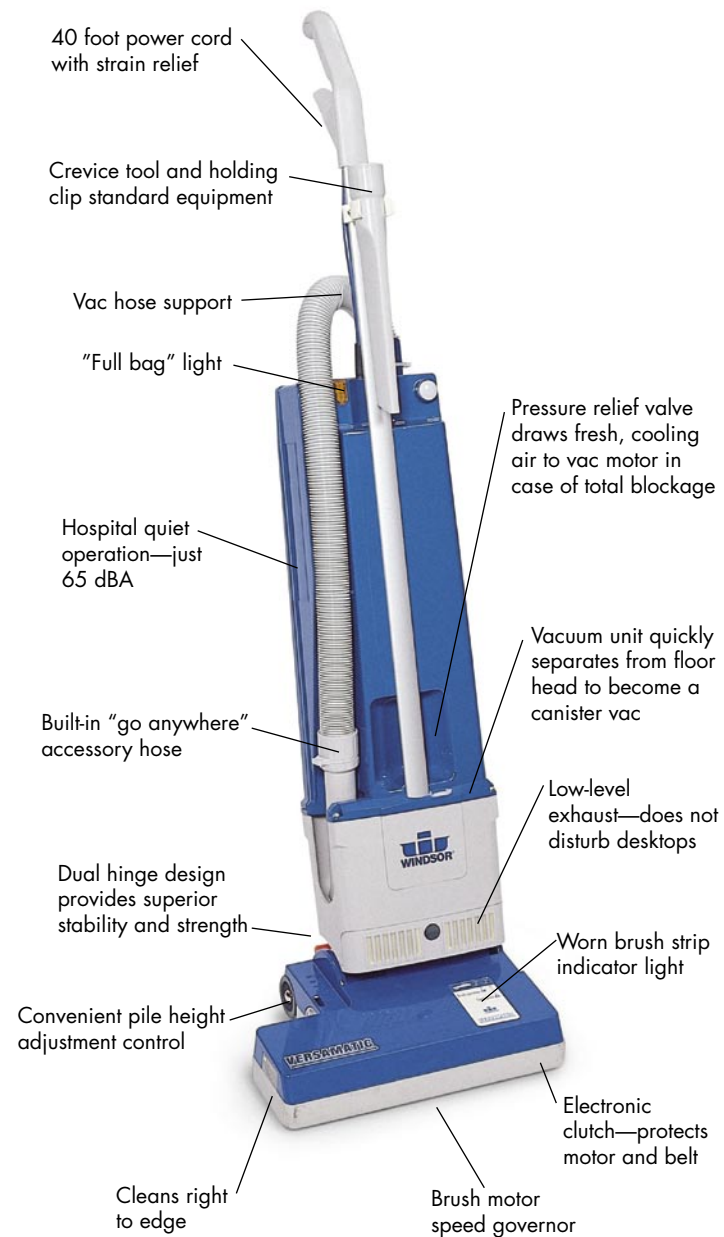

The sturdy cord restraint system and quick release cord hook increases productivity and machine life. Versamatic gives you the added assurance of a Three Year Warranty on the vacuum motor, brush motor and belts.

Simple Maintenance

Versamatic makes it easy to change the filter bag. The large capacity, top-filling bag slides easily into the machine housing. The door will not close if the bag is missing, and if the bag and filter are not in place. Versamatic's Triple Check filter bag and optional 0.3 micron Air Quality Microfilter improve indoor air quality by trapping contaminants, preventing them from being recirculated into the air.

Versamatic At-a-Glance

Performance Features

- Electronic Control System
 - Green light—brush setting is correct
 - Green and red lights—brush setting is too high or brush needs to be replaced
 - Red light—brush motor is obstructed and has automatically turned off

- Toothed neoprene timing belt ensures slip-free brush drive.

- Remove one screw to easily access brush strip. Replacement is quick, easy and inexpensive.
